GET READY.

Now let the Republicans get together and work for the success of the ticket. It is admitted on all sides that too much attention has been given to the league fight and work for the ticket nominated at the state convention cannot be pushed too vigorously. Pennsylvania's returns this year will be taken as an indication of what may be expected in the presidential campaign, so let all Republicans prepare to show the enemy that the old Keystone state is still true to the cause of good government. The league fight is over and it will be policy to let the matter drop. People who hint that the result will jeopardize the state ticket will do well to change the subject and not place themselves in a ridiculous position. There are many Republican clubs in the state and their rolls bear the names of thousands of Republicans, but it must be remembered that there are many thousands of Republicans who are not members of these organizations and to them the

Robinson-Dalzell discussions sound like the prattling in a kindergarten. Mr. Robinson, as president of the league, will be expected to have the members in line next November, sold for the whole ticket. He has promised to do this and his record of the past leaves no room for suspicion that he will not. Dalzell has also pledged himself for the ticket and, of course, this is taken as assurance that his friends will do likewise. Thus the Republican party presents a solid front and with energetic work the state ticket can be elected by an overwhelming majority.

OUR MAIL SERVICE.

More than three months ago the *Item* began the agitation for an improvement in our mail service, which has since then been spread by other journals. We then pointed out how slow and unsatisfactory were our means of communication with the largest town in the county, which is only four miles away, yet can be reached by mail only in as many hours as it takes to reach New York. The Shenandoah *HERALD* shows, on the evidence of the Postmaster, that it takes about forty hours to send a letter and receive a reply. Our connection with all the towns in the Mahanoy and the Catawissa valleys and other towns reached in that way is equally unsatisfactory. With Pottsville and other points south and east our communications are excellent, but in other directions they are certainly of a backward character. To reach Ashland, Mahanoy City and Shamokin, we must either send by a route most circuitous and lengthy and slow, or wait for a service which is given but once a day. Superintendent Jackson has improved the postal service in this region but Frackville has scarcely benefited by it. We invite his attention to the proposed route via the Pennsylvania and the Lehigh Valley lines, which the *Item* urged last June and the *HERALD* is pushing now.—*Frackville Item.*

COME, merchants, one and all, advertise your wares and help boom the town. Nothing draws strangers here quicker than a newspaper filled with advertisements of go-ahead merchants.

TOWN TALKER!

THOUGHTS ON THIS AND THAT
THREADED TOGETHER.

THEMES TERSELY TABULATED

The Tattle of the Tattlers Timely
Taken and Told Typographically
in a Tasteful and Tempting Tone.

One of the oldest and most prominent business men of the town yesterday suggested to a *HERALD* reporter a plan for organization in lieu of a board of trade. The idea is a novel one and the plan appears feasible. It is suggested that a co-operative industrial organization, having for its object the promotion of home industries, be formed. That property holders, business men, and taxpayers who are not property holders or business men, be enlisted and each member pay in one dollar per month on each share. On an issue of 500 shares the income would be \$500 per month and such an income would lay a good foundation for serious and healthy industrial movements. Of course if the one or two thousand shares could be disposed of, so much more healthy the movement would be. When sufficient funds are accumulated the association would be in a position to give outside capitalists and manufacturers, who are now tapping at our doors, substantial encouragement without casting a burden upon any class of citizens. The property holder, of course, is the most interested in having industries established in the town and he could well afford to waive interest for a while on the installments he would pay into the fund. The business man is equally interested and the taxpayer who is not engaged in business and does not own property would also have an interest. In the case of the latter the holder of shares who takes an active interest in the affairs of the association would be in a better position to secure work for his relatives in the factories or other industries that might be established than the man who interested himself in no way with the organization. The gentleman suggests that a meeting of citizens be called to discuss the plan.

Members of the gentle sex, residing in adjoining dwellings in the eastern part of the town, yesterday engaged in a wordy battle that had an arousing termination. To the uninitiated the passages the combatants hurled at each other sounded like so much Greek. All the reporter could understand was, "You did," "I didn't," "You're a liar," "Come out here and say that," "Go in the house, you dirty thing," "I am, am I?" "When?" "Sunday night," "O, what a lie!" "You did," "Did you ever hear the like?" etc. The battle continued several minutes and then one of the parties dashed into the house, squatted herself at an organ and proceeded to drown the vociferous outside. The tune was that of the beautiful hymn, "Shall we Gather at the River?" The Amazon who was left outside stopped talking, listened for a moment and then shouted in a voice calculated loud enough to be heard by the player, "There'll be no river in the next world you'll go to, so there," and there was a general slamming of doors and the dog in the yard crawled into its kennel amid the death-like silence that prevailed.

The local men of the forest, otherwise known as members of Shenandoah Tribe, No. 155, Improved Order of Red Men, had a jolly time at the state fair in Bethlehem yesterday. The excursion was well patronized. Over 200 tickets were sold at the Lehigh Valley depot. They returned to town about 11 o'clock last night, fully satisfied with the trip and what they saw at the fair.

The town is as dull as a barnstorming company's production of "Roméo and Juliet" and the lot of the news gleaner is a hard one. "Not even a dog fight," remarked Justice Monaghan, of the First ward, this morning. "But there is always a calm before a storm and as the P. & B. C. & L. Co. will pay the employees at its collieries in this district to-morrow it is quite likely that something interesting will turn up by Monday."

FRACKVILLE FLASHES.

Interesting Correspondence From the Booming Mountain Town.
The contract for the erection of the Frackville and Gilberton Light and Power Company's plant has been awarded to H. M. McGovern, of Girardville. Work will be pushed at once on the building, which will be 70 by 40 feet in size. The foundations for the boilers are ready and the boilers will be put in position on Monday.

The P. O. S. of A. opera house is rapidly nearing completion. The theatre will have a seating capacity of 500. The building is 45x70 in size and the stage opening is 30x45 feet. The main floor slopes well and half of it is constructed so that it may be raised, or lowered, or made level for dancing. The stage is perfectly level. It would make a better one if it sloped a little towards the footlights. There is a lodge and other rooms of good size in the building.

New stores are needed here very much. Many of our merchants are behind the times. They don't advertise and let the people know what wares they have for sale. People should be able to buy goods just as cheap in Frackville as in Pottsville and save the fares they pay to the latter place. If the merchants advertised liberally they would not have so much time to sit down and get lazy. The Indian show is located here and the doctor advertises liberally, consequently he does big business, as he did in Shenandoah.

John Scott, of Pottsville, brother of Alexander Scott, of town, has become superintendent of the Silver C. & C. Company's washery at Moxville, vice Malbon Gerber, who has assumed the superintendency of the collieries in which he has an interest.

W. S. Sanner is putting up a handsome dwelling and store room at the corner of Valley and Frack streets.

Alonzo Cotton and family are enjoying a delightful day's picnicking at Tumbling Run to-day.

Mrs. Byers and children, of Philadelphia, are the guests of Anthony O'Malley, of Nice street.

PERSONAL.

'Squire Shoemaker spent to-day at Pottsville.

FOUR MEN KILLED

AWFUL EXPLOSION AT AN ITALIAN COLEBRATION.

TWENTY MORE ARE INJURED.

Gas Pipe Used for Cannon and Loaded With Dynamite—Many of the Victims Fatally Hurt.

NEWARK, N. J., Sep. 25.—Four persons were killed and twenty injured last night by the explosion of an improvised cannon.

The Italian quarter was decorated with Italian flags and streamers and the houses in the neighborhood were brilliantly lighted with Chinese lanterns in honor of St. Rocco's day. A number of fireworks were also exploded.

Among the latter was a piece of gas-pipe filled with dynamite which was fired at about 10:30 o'clock and before the detonation had died away the air was filled with shrieks, cries and groans of pain from nearly thirty people who had been injured by the explosion of the gas-pipe.

Word was sent to the police station immediately for help, and four patrol wagons were sent to the scene of the accident. The injured were taken to the different hospitals. The killed are:

MICHAEL O'NEIL, aged 25.
HARRY BUCKMAN, aged 22.
DANIEL MURRAY, aged 13.
CARLIS, aged 12.

Among the most seriously injured are John Costello, a boy; George Brown, David Chesney and Policeman James Bowen. Three of these will die.

The police believe that many wounded persons, and possibly some of the dead, were removed by friends to their homes from the scene of the explosion.

LAID TO REST.

Funeral Services Over the Late Ex-Congressman Scott.
EMF, Pa., Sep. 25.—Last evening at 5 o'clock the remains of the late Hon. William Lawrence Scott were conveyed to the family mausoleum in Erie Cemetery. The funeral services were held at the family residence at 4 o'clock, and were open to the public.

Rev. John Huske, rector of St. Paul's Episcopal Church, and Rev. William Price, rector of the Cross and Crown Church, officiated.

Thursday afternoon the family residence was opened to the public to allow the people of Erie to look for the last time upon the face of the honored dead. All afternoon there was a steady stream of people moving in and out of the residence.

The remains reposed in a rich black casket in the north parlor. The face of the deceased bore a peaceful expression. At the head of the casket was a beautiful white floral pillow with the words: "At rest," worked across the center in colored flowers.

People of all classes appeared in line and waited their turn. Tears fell from the eyes of many as they looked at the face of the dead.

Governor Pittston, Secretary of State Harry and Adjutant-General McClellan, President Roberts of the Pennsylvania Railroad Company, and several directors of the road; President Huggitt of the Chicago and Northwestern road, and officers of several other Western and Southwestern roads were among those present.

The city was heavily draped in mourning and many portraits of Mr. Scott, framed in crepe, were to be seen in windows.

The death of Mr. Scott has caused deep sorrow throughout Erie County, and delegations from a number of the county towns were present at the funeral.

About ten o'clock ex-President Cleveland, accompanied by Hon. Daniel Lammont, arrived from the East. There was a vast throng at the depot awaiting the arrival of the ex-President, who received a most cordial greeting. Mr. Cleveland and Mr. Lammont entered carriages and were driven to the Reed House. In the afternoon they were driven to the Scott home.

For the Spanish Flood Sufferers.

NEW YORK, Sep. 25.—Over 200 Spanish and Spanish American residents of this city attended a mass meeting in Tammany Hall last night for the purpose of raising funds for the benefit of the Spanish flood sufferers. Consul General Topete of Spain presided. Over \$5,000 were raised for the sufferers. A resolution was also adopted appealing to the Americans to contribute for the relief of the flood sufferers.

New Hampshire's Guardsmen.

CONCORD, N. H., Sep. 25.—Col. Loomis L. Langdon, who was detailed to visit the recent State encampment and inspect the National Guard of New Hampshire, reports a decided improvement upon previous encampments, and says the discipline of the brigade will compare favorably with that of regular troops. He found the officers competent, and a lively interest taken by both officers and men.

Cut Wages to Fight Rivals.

BOSTON, Mass., Sep. 25.—The Waltham Watch Co., in order to carry on the war against J. C. Dyer and the Waltham Watch Co., has reduced wages of employees from 5 to 10 per cent. The company manufactures about 2,000 watches per day. The reduction is also attributed to the recent cut in price of the eighteen-size movement and Guinness in the watch trade.

The waffle season is here again.

STILL SPREADING.

Wonderful Strides a Home Industry is Making.
Workmen are engaged in considerably enlarging the factory of Robbins & Donnell, the hat and cap manufacturers of town. This firm is a young industry, but it is rapidly going to the front. The present is the second enlargement of the factory within a year, so rapidly has the business developed. The new addition will be 25x50 feet in size and this will make the full size of the factory 41x61 feet. The improvements will be completed by next week. The first floor will be used as stock, packing and shipping department, with an office on the Bowers street side and the delivery department on Apple alley. The second floor will be used as a cutting and operating room and the blocking department will be on the third floor. The lines of the factory at present is 27 girls and three men, the latter being operators and blockers. This force will be increased as soon as the enlarging of the building is completed. The capacity of the factory now is 75 to 100 dozen caps per day, regularly. Recently as high as 300 dozen were shipped daily from 1900 accumulated during the dull season. The firm's business extends as far West as Iowa and South to Tennessee, and a large field has just been opened in New York state.
